Product information

Intended use	Multipurpose compound chemical fertilizer. Is characterized by well balanced content of all main nutrients; is applied under main agricultural crops. Nitrogen is presented by ammoniacal and amidic forms. This fertilizer incorporates secondary nutrient Sulphur, promoting redox processes optimizing in plants. The recommended application norm makes 100-300 kg/ha, depending on agricultural species. Is most efficient if to apply on black soils, podzolized and typical ones, light grey and grey forest soils.
Appearance	Granules, coloured from light-pink to dark-red
Molecular formula	Not applicable. Polycomponent product, representing the blend of: <ul style="list-style-type: none"> • potassium chloride - KCl, • carbonyldiamide - CH₄N₂O • ammonium dihydrogenphosphate - NH₄H₂PO₄, • ammonium sulphate - (NH₄)₂SO₄, • ammonium hydrophosphate - (NH₄)₂HPO₄
State registration certificate	Series A No. 02635
Registration numbers under Regulation (EC) No.1907/2006 (REACH)	for KCl – not applied, 01-2119463277-33-0048; 01-2119488166-29-0044, 01-2119455044-46-0091; 01-2119490974-22-0042
Guaranteed shelf life	Packed — 2 years from the date of manufacture; unpacked – 6 months from the date of manufacture.
Durability period	Unlimited
Packing	50 kg bags, 1000 kg disposable soft polypropylene containers. Deliveries in bulk are possible.
Storage and handling conditions	Store in original manufacturer's packaging in covered warehouses, preventing from the ingress of atmospheric precipitations and soil waters or product contamination. To prevent risks for humans and environment, keep recommendations on application in agricultural and private sector, conforming to application norms.
Transport information	The cargo is not classified as dangerous under international carriage regulations. The product is transportable by all kinds of vehicles (by railway, road, sea, air) in accordance with carriage regulations, valid for the given kind of shipment. "Keep Dry" sign is mandatory.
